Profile

I'm a recent graduate in philology with a deep love for language and literature. I've taken a proactive step into the world of web application development, with a special emphasis on Frontend JavaScript Development. My commitment to expanding my IT skills led me to enrol in the IT Academy, where I'm dedicated to gaining practical expertise in the field. My goal is to merge my linguistic knowledge with strong technical capabilities, making me a versatile professional in projects that require both linguistic insight and IT expertise.

Education

- Faculty of Philosophy, Novi Sad, Serbian language and literature, 2018 - 2022
